Dear Mr. Ippolito:

Your letter of August 20, 1979 requested that we review the licensing back log to determine priorities and whether or not the requests were obsolete.

The following comments apply:

- 1) Verification of Sensor Response Time - This item is in response to the NRC letter of December 19, 1975.
- 2) Single Loop Operation - This request is obsolete. A revised submittal is not presently scheduled.
- 3) Measured Scram Time - Approved.
- 4) Iowa Electric letter dated July 19, 1978; regarding Radiological Monitoring ETS-21; ETS-22; and ETS-23 are all superceded by our Appendix I submittal (RTS-115) dated August 29, 1979.
- 5) All other requests are necessary as explained in the individual submittal. None are considered to require immediate action.

If you have any questions, please call.

Very truly yours,

Larry D. Root
