Dear Mr. Ippolito:

This letter and attachment are intended as our final response to your letter dated October 22, 1979 concerning Alternate Safe Shutdown Capability. As stated in our letter dated June 5, 1980, based upon your position entitled "Safe Shutdown Capability," we have reviewed the plant design, procedures, and the information in our Fire Hazard Analysis which was transmitted to you by our letter dated June 7, 1979.

Our conclusions remain identical to those transmitted in our June 5, 1980 letter in which we stated the need for certain procedural and design modifications. Those changes and our analysis are presented in the attachment to this letter. We have included two copies of the drawings listed in Appendix B of the attachment.

Very truly yours,

Larry D. Root
