DAEC-84-116

Mr. James G. Keppler  
Regional Administrator  
U.S. Nuclear Regulatory Commission  
Region III Office  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

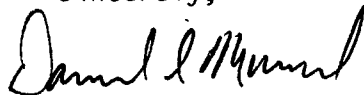

SUBJECT: Distribution of DAEC Procedures; Emergency Plan Implementing Procedures (EPIPs) and Radiation Protection Procedures (RPPs)

Dear Mr. Keppler,

In order to simplify procedure distribution, we are revising the Region III office distribution for Radiation Protection Procedures (RPPs) from a controlled copy to an uncontrolled copy for your information only. Procedure revisions will continue to be distributed to you on a regular basis, but acknowledgement will not be required. A controlled copy of a procedure can be obtained on a specific need basis at your request.

We will continue controlled distribution to your office for the Emergency Plan Implementing Procedures (EPIP). In order to verify receipt, we plan to follow up any EPIP distribution not acknowledged within ten days by telephone. Please identify an individual in your office to whom we can direct EPIP distributions and any verification call which occasionally may be required. If you have any further questions regarding this matter or have a specific need for a controlled copy of a procedure, please contact me at 851-7211, or Jerry Davis at 851-7228.

Sincerely,

Daniel L. Mineck  
Plant Superintendent
