Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Duane Arnold Energy Center
Docket No: 50-331
Op. License No: DPR-49
Request for Time Extension for Response to
Generic Letter 84-11

Dear Mr. Eisenhut:

The purpose of this letter is to request an extension of the dates required for response to Generic Letter 84-11, regarding Inspections of BWR Stainless Steel Piping, dated April 19, 1984. The letter requires a response pursuant to 10 CFR 50.54(f) within 45 days of the date of the letter, and states that extensions may be granted based upon requests submitted no later than 15 days from the date of the letter.

Generic Letter 84-11 was received by Iowa Electric on May 1, 1984, leaving only three days to review the letter in order to determine whether an extension may be required, and only 33 days of the 45 days specified in the Generic Letter in which to provide a response pursuant to 10 CFR 50.54(f).

Based upon the delay in our receipt of Generic Letter 84-11, Iowa Electric Light and Power Company hereby requests an extension of 12 days in each of the dates of response pursuant to that letter. This will extend to May 16, 1984, the period in which we may review the requested responses in order to determine whether additional extensions are required and will extend to Monday, June 18, 1984, the date on which a response will be submitted if no additional extensions are requested.

Thank you for your consideration of this important issue.

Very truly yours,

Richard W. McGaughy
