Glen Ellyn, Illinois

Subject: Plan of Action

Reference: Letter J. Keppler to D. Arnold
dated June 4, 1982, same subject

Dear Mr. Keppler:

This is in further response to your letter of June 4, 1982, requesting a plan of action to upgrade our regulatory performance in areas where you have identified the need for improvement. Our letter LDR-82-202, of July 30, 1982, provided a draft plan of action, which was discussed in your letter of August 20, 1982, and during the meeting held in your office September 13, 1982.

The enclosed Regulatory Performance Improvement Program is organized to show responsiveness to your expressed concerns. These actions are a part of broader programs within Iowa Electric which are designed to improve our management effectiveness and efficiency of operation.

Iowa Electric intends to exercise initiative in recognizing opportunities for additional improvements and in taking action on such items. Our Five Year Integrated Plan which was submitted to NRC is one example. Another is the health physics record keeping system which we are developing; our current program is expected to result in a system which will

be as advanced and effective as any in the industry. Consistent with this, we also intend to take effective actions to correct those areas which are of current concern to NRC, and to maintain the effort which is necessary to achieve lasting results.

Very truly yours,

LEE LIU
President
