Docket No: 50-331
Op. License No: DPR-49
Qualification of Safety-Related Electrical
Equipment

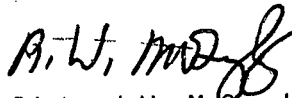

Dear Mr. Denton:

As indicated in our letter of February 11, 1983, NG-83-0544, responding to the December 20, 1982 safety evaluation on environmental qualification, at least one additional semiannual environmental qualification report would be developed and submitted to the NRC. The purpose of this letter is to inform the NRC of the anticipated submittal of this document before the end of September, 1983.

The February 11, 1983 response to the SER provided a complete status update to that time and no significant changes have occurred since that report was submitted. This fourth report is intended to be a complete update of our submittal of July 15, 1982, (LDR-82-191), including status of efforts to resolve environmental qualification action items.

Please contact this office if there are questions concerning this subject.

Very truly yours,

Richard W. McGaughey
