Re: Duane Arnold Energy Center
Docket No: 50-331
Op. License No: DPR-49
Subject: Change in Organizational Structure
File: A-100, A-365

Dear Dr. Murley:

This letter provides advance notice of a change in our Quality Assurance Program which will be made soon.

As you know, Iowa Electric Light & Power (IELP) made changes in its organization earlier this year. The changes included establishing a new position, Vice President, Production reporting to the Senior Vice President, Operations and Production. We have now concluded that the Manager, Corporate Quality Assurance, should report to the new Vice President, Production, rather than to the Senior Vice President, Operations and Production. We feel that this change will provide a greater amount of attention to our Quality Assurance Program without a loss of independence.

We have determined that this change in reporting responsibility does not reduce the commitments in the description of IELP's Quality Assurance Program which was previously accepted by the NRC. Therefore, this change will be included in the report which describes changes to the Program description that do not reduce commitments and is submitted at least annually as specified in 10 CFR 50.54(a)(3) and 50.71. Our next such report is currently scheduled for May of 1988.

Should you have any questions pertaining to the change described above, please contact me.

Sincerely,

Lee Liu
Chairman of the Board and President
Chief Executive Officer
