RE: NRC/State Consultation pursuant to 10 CFR 50.91(b) effective May 6, 1983.

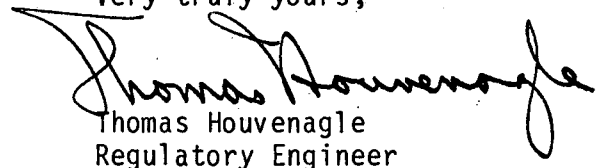

Dear Mr. Vassallo:

On September 5, 1984, this office received from Iowa Electric Light & Power Company a copy of its amendment (to Op License No. DPR-49) request dated August 31, 1984. The request related to a statement in the technical specification that in the future detailed written procedures shall be prepared regarding shift overtime for operations personnel. The request was identified as proposed change RTS-169

On November 5, 1984, this office received the monthly notice of amendment applications to operating licenses involving no significant hazards consideration. AT 49 FR 42827 for October 24, 1984, the notice of the subject amendment request was included, and the basis of the NRC proposal for a no significant hazards consideration determination was explained.

This letter is to state that as the 10 CFR 50.91(b)(3) state consultation designated contact, I have no comment.

Very truly yours,

  
Thomas Houvenagle  
Regulatory Engineer
