RE: NRC/State Consultation pursuant to 10 CFR 50.91(b) effective May 6, 1983.

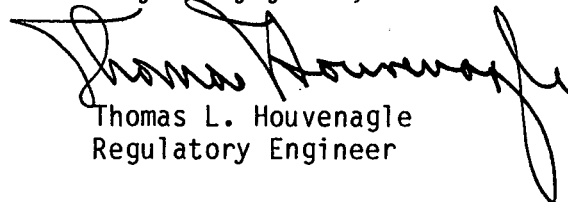

Dear Mr. Vassallo:

On October 11, 1984, this office received from Iowa Electric Light & Power Company a copy of its amendment (to Op License No. DPR-49) request dated October 5, 1984. The request related to modification of the automatic depressurization system (ADS) actuation logic. The request was identified as proposed change RTS-171.

On January 11, 1985, this office received the monthly notice of amendment applications to operating licenses involving no significant hazards consideration. AT 49 FR 50805 for December 31, 1984, the notice of the subject amendment request was included, and the basis of the NRC proposal for a no significant hazards consideration determination was explained.

This letter is to state that as the 10 CFR 50.91(b)(3) state consultation designated contact, I have no comment.

Very truly yours,

Thomas L. Houvenagle
Regulatory Engineer
