RE: NRC/State Consultation pursuant to 10 CFR 50.91(b)
effective May 6, 1983.

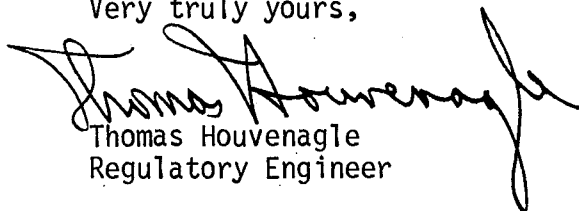

Dear Mr. Vassallo:

On January 2, 1986, this office received from Iowa Electric Light & Power Company copies of its amendment (to OP License No. DPR-49) request dated December 30, 1985. The request related to fire protection program modifications. The request was identified as proposed change RTS-167.

On February 24, 1986, this office received the monthly notice of amendment applications to operating licenses involving no significant hazards consideration. At 51 FR 5275 for February 12, 1986, the notice of the subject amendment request was included, and the basis of the NRC proposal for a no significant hazards consideration determination was explained.

This letter is to state that as the 10 CFR 50.91(b)(3) state consultation designated contact, I have no comment.

Very truly yours,

Thomas Houvenagle
Regulatory Engineer
