Washington, D. C. 20555

RE: NRC/State Consultation pursuant to 10 CFR 50.91(b)
effective May 6, 1983.

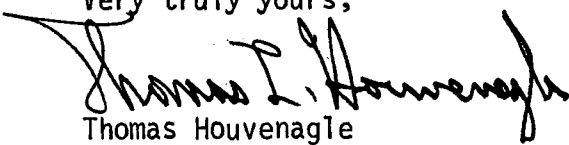

Dear Mr. Muller:

On January 13, 1986, this office received from Iowa Electric Light & Power Company copies of its amendment (to Op License No. DPR-49) request dated January 8, 1986. The request related to hydrogen injection demonstration project as possible water chemistry mitigator of IGSCC. The request was identified as proposed change RTS-202.

On March 7, 1986, this office received the monthly notice of amendment applications to operating licenses involving no significant hazards consideration. At 51 FR 6826 for February 26, 1986, the notice of the subject amendment request was included, and the basis of the NRC proposal for a no significant hazards consideration determination was explained.

This letter is to state that as the 10 CFR 50.91(b)(3) state consultation designated contact, I have no comment. This confirms my telephonic response requested by Mr. Thadani in his March 17, 1986 emergency situation call pursuant to 10 CFR 50.91(b)4.

Very truly yours,

Thomas Houvenagle
Regulatory Engineer
