RE: Materials License No.: 49-26846-01
 Docket No.: 030-29502
 Control No.: 575236

Dear Lizette:

In response to our phone conversation Aug. 10, 2011, Energy Laboratories, Inc. would like to request 150 kilograms of source material be added to our license as opposed to what was listed in section 8 of the amendment request.

Also, the chemical and physical forms for the source materials are (1) yellowcake as liquid and/or solid and (2) solid / core material. There is no way of knowing what chemical form that core material comes in as.

Please let me know if any other questions arise.

Sincerely,

Dee Fairservis, RSO
