CITIZENS ALLIED FOR SAFE ENERGY MOTION
REQUESTING A ONE DAY FILING DELAY FOR A FILING
RELATED TO THE FUKUSHIMA TASK FORCE REPORT

INTRODUCTION

Citizens Allied For Safe Energy, Inc. (CASE) is attempting to file contentions in the subject proceedings based on The Near-Term Task Force Review Of Insights From The Fukushima Dai-Ichi Accident issued on July 12, 2011. CASE has been unable to access the EIE system and asking for one more day to establish the connection and to complete its motion. The problem has absorbed an inordinate amount of time apparently due to incorrect setting information available to the EIE staff.

BACKGROUND

CASE's EIE Certificate expired on August 4, 2011. Starting on August 2, 2011 CASE attempted to renew the certificate, to no avail. Finally, the Certificate expired. CASE began the process of obtaining a new certificate on both MAC and PC computers but the EIE staff was unable to establish a connection.

After spending almost all day on the 9th and the 10th of August, CASE called the service provider company VeriSign to ask what the error message being received meant; the EIE staff did not know. CASE was advised that, effective May 20, 2011, the encryption setting went from medium to high; the EIE staff

had advised us to use medium. At 8:00 P.M. on August 10, 2011 CASE was able to obtain a certificate through Safari on MAC. However today, when CASE attempted to use it, another error message was encountered. It appears that it is almost impossible to use a MAC and Safari to access EIE. Now CASE is attempting to establish contact through Internet Explorer.

CONCLUSION

CASE is hereby requesting a one day filing extension to August 12, 2011 for the decribed submission.

Respectfully submitted,

/signed electronically by/
