

August 15, 2011

Mr. Sean E. Oehlbert
Global Regimes Program Director
Office of Nonproliferation and International Security (NA-24)
U.S. Department of Energy
National Nuclear Security Administration
1000 Independence Avenue, S.W.
Washington, D.C. 20585-1615

Dear Mr. Oehlbert:

Enclosed is an application (XSNM3697), dated August 9, 2011, recently received by the U.S. Nuclear Regulatory Commission (NRC), from AREVA NP Inc. for the export of natural and low-enriched uranium (LEU), first to Germany for fuel fabrication and then for ultimate use as fuel in various nuclear power reactors within EURATOM, including, but not limited to, the Olkiluoto Nuclear Power Plant (Unit 1) in Finland.

Assurances from EURATOM that the material will be subject to all of the terms and conditions of an agreement for cooperation are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is possibly of Australian, or Canadian origin; and enriched in the EURATOM, or the U.S. It, thus, has Australian, Canadian, and EURATOM obligations.

Sincerely,

/RA/

Janice E. Owens, Branch Chief
Export Controls and International Organizations
Office of International Programs

Enclosure:
Application Dated 8/9/2011
XSNM3697 – Finland and
EURATOM community
