Request for information; Reciprocity Inspection

(NOTE: This will be used as the  
Documents Title in ADAMS)

Mr. Clough (RSO) was called to gather additional information regarding Warner Brothers, LLC, activities using a portable gauge in NRC jurisdiction within the state of Connecticut. This call was also to discuss the inspection conducted on August 4, 2011, by Craig Gordon.

Mr. Clough is the RSO of Warner Brothers, LLC. He reports to Mark Gabriel, the QC Manager. Mr. Clough verified the company address: 901 River Road, East Deerfield, Massachusetts 01342. The company owns one Troxler density gauge, Model 4640B, containing a single 8 mCi Cs-137 sealed source. The gauge was used in Connecticut on December 6, 2006 and July 7, 2008. The company had not used the gauge in any other areas of exclusive federal jurisdiction. The RSO said that they had taken corrective actions to prevent recurrence by revising their procedure, training the authorized users, and marking the transport container and utilization log with bold letters "Not To Be Taken Out Of State."

The RSO stated that they will contract any work in NRC jurisdiction to a company with a current NRC license.

The RSO was informed of the apparent violation of 10 CFR 150.20, what the regulation requires, that they will be contacted for a formal exit meeting via telephone, that the NRC will consider the information gained in telephone conversations and the site visit (inspection) conducted by Craig Gordon, in making a determination regarding the results of the inspection.
