Subject: REQUEST FOR ADDITIONAL INFORMATION REGARDING CONTROL 575581
Attachments: apph-errata.pdf

License No.: 50-29426-01
Docket No.: 030-38467
Control No.: 575581

Dear Ms. Stone:

This is in reference to your application dated July 5, 2011 requesting a Nuclear Regulatory Commission License. In order to continue our review, we need the following information:

1. Please state if you intend to use the portable gauge at temporary job sites.
2. Please provide an activity per source and a maximum possession limit for the Radium-226 source you wish to possess. The activity per source is the current activity in the portable gauge. The maximum possession limit (MPL) will depend on how many gauges you possess or intend to possess in the future. For example, the Seamen C-300 model stated in the application can contain up to 5.5 mCi of Radium-226. That would be the amount per source (it may be less). If you wanted to possess 3 gauges total your MPL for Radium-226 would be 16.5 mCi (5.5mCi X 3).
3. Please note that Appendix H has been modified. The Errata to appendix H is attached. Please confirm you will implement and maintain the operating, emergency and security procedures in Errata: Appendix H of NUREG-1556, Vol. 1, Rev. 1, dated November 2001, and provide copies of these procedures to all gauge users and at each job site.
4. Please provide an email address, contact number and fax number for Mr. Gary Kowalczyk.

We will continue our review upon receipt of this information. Please reply to my attention at the Region IV Office and refer to Mail Control No. 575581. Please respond to this e-mail by August 22, 2011. You may reply via e-mail as long as the response is attached in a PDF format or by fax to 817-860-8263.

Thanks,

Lizette Roldán-Otero, Ph.D.

RE: License No.: 50-29426-01; Docket No.: 030-38467; Control No.: 575581

As per your July 22, 2011 request for additional information in reference to your review of our Nuclear Regulatory Commission License application, I submit the following:

F. R. Bell and Associates, Inc. (BELL) does intend to use the portable gauge at temporary job sites.

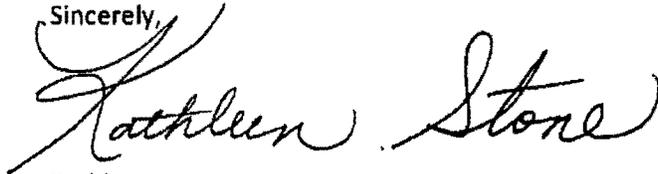

BELL owns two Seaman C - 200 model currently located in Prudhoe Bay, Alaska. However, BELL would like authorization for three units in the event we would need to rent and additional one in the future.

BELL acknowledges that Appendix H has been modified and we confirm that we will implement and maintain the operating, emergency and security procedures in Errata: Appendix H of NUREG-1556, Vol. 1, Rev. 1, dated November 2001. BELL will also provide copies of these procedures to all gauge users and at each job site. Copies will be submitted to all employees that are approved to operate/move the densometers.

The following is BELL contact information for Mr. Gary Kowalczyk:
Email address: akgkowalczyk@aol.com
Contact number: (907) 659-5000
Fax number: (907) 659-5065

Thank you for taking the time to review our application. If you need further information, please do not hesitate to contact me directly at 907-743-3408 or kstone@frbcmh.com

Sincerely,

Kathleen Stone
