

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 29, 2011

Mr. Samuel L. Belcher
Vice President Nine Mile Point
Nine Mile Point Nuclear Station, LLC
P.O. Box 63
Lycoming, NY 13093

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE
RE: PROPOSED LICENSE AMENDMENT FOR EXTENDED POWER UPRATE
(EPU) OPERATION – NINE MILE POINT NUCLEAR STATION, UNIT NO. 2 -
(TAC NO. ME1476)

Dear Mr. Belcher:

By letter dated December 13, 2010, you submitted affidavits dated December 7, 2010, and December 9, 2010, executed by Mr. Savit Sinha of Holtec International and Mr. Anthony P. Reese of Global Nuclear Fuel - Americas, LLC (GNF-A), respectively, requesting that the information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

Attachment 4 and 5 of Letter from Nine Mile Point to Document Control Desk (NRC) dated December 13, 2010: "Response to Request for Additional Information Regarding Nine Mile Point Nuclear Station, Unit No. 2 - Re: The License Amendment Request for Extended Power Uprate Operation (TAC No. ME1476) - Spent Fuel Pool Criticality Analysis."

Table 1 of Appendix E of Holtec Report No. HI-2012621, Criticality Safety Evaluation for the Nine Mile Point 2 Rack Installation Project. Table 1 is entitled, "NMP2 SPENT FUEL POOL RERACK PROJECT."

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- a) Information that discloses a process, method, or apparatus, including supporting data and analyses, where prevention of its use by [Holtec's/GNF-A's] competitors without license from [Holtec International/GNF-A] constitutes a competitive economic advantage over other companies;
- b) Information which, if used by a competitor, would reduce [his/their] expenditure of resources or improve [his/their] competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing of a similar product.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the above listed documents marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the Nuclear Regulatory Commission (NRC). You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-1030.

Sincerely,

Richard V. Guzman, Senior Project Manager
Plant Licensing Branch I-1
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
