Installment #3b contains the single email message below, except that the original included a very large attachment (14 MB), which was a PDF copy of SAND96-0957, "Site Restoration: Estimation of Attributable Costs from Plutonium-Dispersal Accidents," written by D. I. Chanin and W. B. Murfin. You probably already have that document. Let me know if this is insufficient and I'll try getting you the original email with attachment.

Nate

Nate,
Here is the Chanin report.

Joe
