Docket No. 030-03754  
License No. 06-00217-06

Mr. John Nicholson  
U.S. Nuclear Regulatory Commission, Region I  
475 Allendale Road  
King of Prussia, PA 19406-1415

Subject: **Final Status Survey Report No. 1**

Reference: **Letter, J. F. Conant (ABB) to J. Nicholson (NRC) dated June 24, 2011**

Dear Mr. Nicholson:

The Reference letter contains a schedule for submitting seven Final Status Survey ("FSS") Reports to the U.S. Nuclear Regulatory Commission ("NRC") for the decommissioning and license termination of the ABB/Combustion Engineering, Windsor, CT Site ("Site").

This letter submits the first FSS Report of seven for portions of the Site identified as the East Main Street Sanitary Waste Line, Industrial Waste Line, and Waste Water Treatment Plant. The Report was produced commensurate with the Site Decommissioning Plan. In doing so, ABB has complied with the decommissioning requirements set forth in 10 CFR 30.36 and 10 CFR 20, subpart E. ABB will request license termination when all FSS Reports have been submitted to the NRC. It is requested that the NRC forward this report to the U.S. Army Corps of Engineers ("USACE") as indicated in the agreement with USACE.

ABB appreciates the attention and effort expended by the NRC in reviewing this FSS Report. If there are any questions or comments regarding this submittal, please contact Mr. Heath Downey, ABB's Radiation Safety Officer, at (207) 828-3505 or me at (860) 687-4904 or by e-mail at [john.conant@us.abb.com](mailto:john.conant@us.abb.com).

Sincerely,

ABB INC.

John F. Conant  
Director, Nuclear Engineering and Compliance
