REMARKS: IMC 2515 App B (Supplemental Inspection Program) has been revised to update Attachment 1 to reflect the current security and radiation safety procedures.

IP 71152 (Problem Identification and Resolution) has been revised to add an inspection requirement for completed corrective actions for greater than green inspection findings. Other revisions include:
(1) guidance on the review of quality assurance audits and on selection of condition reports for routine and semiannual reviews; and (2) a reference to IP 93100, "Safety Conscious Working Environment Issue Follow-up."

IP 93100 (Safety-Conscious Work Environment Issue of Concern Followup) is issued to provide guidance to inspectors for the followup of safety-conscious work environment issues.

TRAINING: Training for IP 93100 is ongoing and will be in the form of focus group facilitation. All training will be complete before inspections are performed.

DISTRIBUTION: Standard
