Honorable Robert D. Ray
Governor of Iowa
Des Moines, Iowa 50319

Dear Governor Ray:

A copy of Amendment No. 2, dated February 19, 1969, to the application submitted by Iowa Electric Light and Power Company for a proposed nuclear plant, designated as the Duane Arnold Energy Center, is enclosed for your information. This amendment transmits revised pages to be inserted in the Preliminary Safety Analysis Report submitted by Iowa Electric. These pages reflect design changes in various systems (i.e., heating, cooling, reactor feedwater, etc.) in the plant, as well as other corrective changes.

As we previously indicated in our letter of November 21, 1968, to Governor Hughes, you may wish to designate an appropriate State official to coordinate the interests of the various State agencies concerning this application and any future application for nuclear reactors in Iowa. In that event, any amendments and related materials would be sent to the individual designated by you to act as coordinator. Since no State official has been designated, the Commission of Public Health and the Commissioner of the Bureau of Labor have been informed when transmittals have been made to the Governor.

Sincerely,

(signed) Harold L. Price

Harold L. Price
Director of Regulation

Enclosures:

1. Amend. No. 2, dtd 2/19/69
Duane Arnold Energy Center
2. Copies of letters to Commissioners
of Public Health and Bureau of
Labor
