Re: AEC Docket No. 50-331
Duane Arnold Energy Center

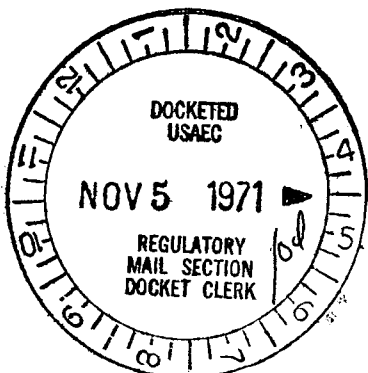

Dear Doctor Morris:

This is in reference to the Statement of Iowa Electric Light and Power Company, Central Iowa Power Cooperative and Corn Belt Power Cooperative which was prepared in response to the requirements of paragraph 3 of Section E, "Appendix D--Interim Statement of General Policy and Procedure: Implementation of the National Environmental Policy Act of 1969 (Public Law 91-190)". That Statement was transmitted to you by letter dated October 18, 1971 from the law firm of Lowenstein and Newman. I am now transmitting a verification of the Statement under oath.

As the Statement indicates, the Bechtel Corporation was retained to perform the engineering and construction services for the Duane Arnold Energy Center and to design and supply many of its components. Representatives of Bechtel were consulted in connection with those portions of the Statement dealing with design features and back fitting changes of environmental interest, status of construction and the impact on plant costs of a suspension of construction.

Sincerely,

C. W. Sandford
