

# **CHAPTER 3—DESIGN OF STRUCTURES, COMPONENTS, EQUIPMENT AND SYSTEMS** **TABLE OF CONTENTS**

|          |                                                                            |        |
|----------|----------------------------------------------------------------------------|--------|
| 3.0      | DESIGN OF STRUCTURES, COMPONENTS, EQUIPMENT AND SYSTEMS .....              | 3.1-1  |
| 3.1      | Compliance with Nuclear Regulatory Commission General Design Criteria..... | 3.1-1  |
| 3.1.1    | Overall Requirements.....                                                  | 3.1-1  |
| 3.1.1.1  | Criterion 1 – Quality Standards and Records.....                           | 3.1-1  |
| 3.1.1.2  | Criterion 2 – Design Bases for Protection Against Natural Phenomena .....  | 3.1-2  |
| 3.1.1.3  | Criterion 3 – Fire Protection .....                                        | 3.1-2  |
| 3.1.1.4  | Criterion 4 – Environmental and Missile Design Bases .....                 | 3.1-4  |
| 3.1.1.5  | Criterion 5 – Sharing of Structures, Systems, and Components .....         | 3.1-4  |
| 3.1.2    | Protection by Multiple Fission Product Barriers.....                       | 3.1-4  |
| 3.1.2.1  | Criterion 10 – Reactor Design .....                                        | 3.1-4  |
| 3.1.2.2  | Criterion 11 – Reactor Inherent Protection.....                            | 3.1-5  |
| 3.1.2.3  | Criterion 12 – Suppression of Reactor Power Oscillations.....              | 3.1-6  |
| 3.1.2.4  | Criterion 13 – Instrumentation and Control .....                           | 3.1-6  |
| 3.1.2.5  | Criterion 14 – Reactor Coolant Pressure Boundary .....                     | 3.1-7  |
| 3.1.2.6  | Criterion 15 – Reactor Coolant System Design.....                          | 3.1-7  |
| 3.1.2.7  | Criterion 16 – Containment Design .....                                    | 3.1-8  |
| 3.1.2.8  | Criterion 17 – Electrical Power Systems .....                              | 3.1-9  |
| 3.1.2.9  | Criterion 18 – Inspection and Testing of Electric Power Systems.....       | 3.1-10 |
| 3.1.2.10 | Criterion 19 – Control Room.....                                           | 3.1-11 |
| 3.1.3    | Protection and Reactivity Control Systems .....                            | 3.1-12 |
| 3.1.3.1  | Criterion 20 – Protection System Functions .....                           | 3.1-12 |

|          |                                                                                        |        |
|----------|----------------------------------------------------------------------------------------|--------|
| 3.1.3.2  | Criterion 21 – Protection System Reliability and Testability .....                     | 3.1-13 |
| 3.1.3.3  | Criterion 22 – Protection System Independence.....                                     | 3.1-13 |
| 3.1.3.4  | Criterion 23 – Protection System Failure Modes.....                                    | 3.1-15 |
| 3.1.3.5  | Criterion 24 – Separation of Protection and Control Systems .....                      | 3.1-15 |
| 3.1.3.6  | Criterion 25 – Protection System Requirements for Reactivity Control Malfunctions..... | 3.1-16 |
| 3.1.3.7  | Criterion 26 – Reactivity Control System Redundancy and Capability .....               | 3.1-17 |
| 3.1.3.8  | Criterion 27 – Combined Reactivity Control Systems Capability.....                     | 3.1-17 |
| 3.1.3.9  | Criterion 28 – Reactivity Limits.....                                                  | 3.1-18 |
| 3.1.3.10 | Criterion 29 – Protection Against Anticipated Operational Occurrences .....            | 3.1-18 |
| 3.1.4    | Fluid Systems .....                                                                    | 3.1-19 |
| 3.1.4.1  | Criterion 30 – Quality of Reactor Coolant Pressure Boundary.....                       | 3.1-19 |
| 3.1.4.2  | Criterion 31 – Fracture Prevention of Reactor Coolant Pressure Boundary .....          | 3.1-19 |
| 3.1.4.3  | Criterion 32 – Inspection of Reactor Coolant Pressure Boundary.....                    | 3.1-20 |
| 3.1.4.4  | Criterion 33 – Reactor Coolant Makeup .....                                            | 3.1-21 |
| 3.1.4.5  | Criterion 34 – Residual Heat Removal .....                                             | 3.1-22 |
| 3.1.4.6  | Criterion 35 – Emergency Core Cooling.....                                             | 3.1-23 |
| 3.1.4.7  | Criterion 36 – Inspection of Emergency Core Cooling System .....                       | 3.1-24 |
| 3.1.4.8  | Criterion 37 – Testing of Emergency Core Cooling System .....                          | 3.1-24 |
| 3.1.4.9  | Criterion 38 – Containment Heat Removal System .....                                   | 3.1-25 |
| 3.1.4.10 | Criterion 39 – Inspection of Containment Heat Removal System.....                      | 3.1-25 |
| 3.1.4.11 | Criterion 40 – Testing of Containment Heat Removal System .....                        | 3.1-26 |
| 3.1.4.12 | Criterion 41 – Containment Atmosphere Cleanup .....                                    | 3.1-26 |

|          |                                                                                        |        |
|----------|----------------------------------------------------------------------------------------|--------|
| 3.1.4.13 | Criterion 42 – Inspection of Containment<br>Atmosphere Cleanup System.....             | 3.1-27 |
| 3.1.4.14 | Criterion 43 – Testing of Containment<br>Atmosphere Cleanup Systems.....               | 3.1-27 |
| 3.1.4.15 | Criterion 44 – Cooling Water .....                                                     | 3.1-27 |
| 3.1.4.16 | Criterion 45 – Inspection of Cooling Water<br>System .....                             | 3.1-28 |
| 3.1.4.17 | Criterion 46 – Testing of Cooling Water<br>System .....                                | 3.1-28 |
| 3.1.5    | Reactor Containment.....                                                               | 3.1-29 |
| 3.1.5.1  | Criterion 50 – Containment Design Basis .....                                          | 3.1-29 |
| 3.1.5.2  | Criterion 51 – Fracture Prevention of<br>Containment Pressure Boundary .....           | 3.1-30 |
| 3.1.5.3  | Criterion 52 – Capability for Containment<br>Leakage Rate Testing .....                | 3.1-30 |
| 3.1.5.4  | Criterion 53 – Provisions for Containment<br>Testing and Inspection .....              | 3.1-31 |
| 3.1.5.5  | Criterion 54 – Piping Systems Penetrating<br>Containment.....                          | 3.1-31 |
| 3.1.5.6  | Criterion 55 – Reactor Coolant Pressure<br>Boundary Penetrating Containment .....      | 3.1-32 |
| 3.1.5.7  | Criterion 56 – Primary Containment Isolation.....                                      | 3.1-33 |
| 3.1.5.8  | Criterion 57 – Closed System Isolation Valves .....                                    | 3.1-33 |
| 3.1.6    | Fuel and Reactivity Control .....                                                      | 3.1-34 |
| 3.1.6.1  | Criterion 60 – Control of Releases of<br>Radioactive Materials to the Environment..... | 3.1-34 |
| 3.1.6.2  | Criterion 61 – Fuel Storage and Handling<br>and Radioactivity Control .....            | 3.1-34 |
| 3.1.6.3  | Criterion 62 – Prevention of Criticality in Fuel<br>Storage and Handling.....          | 3.1-35 |
| 3.1.6.4  | Criterion 63 – Monitoring Fuel and Waste<br>Storage.....                               | 3.1-36 |
| 3.1.6.5  | Criterion 64 – Monitoring Radioactivity<br>Releases .....                              | 3.1-36 |
| 3.1.7    | References .....                                                                       | 3.1-37 |
| 3.2      | Classification of Structures, Systems, and Components.....                             | 3.2-1  |
| 3.2.1    | Seismic Classification.....                                                            | 3.2-2  |

|         |                                                                                              |         |
|---------|----------------------------------------------------------------------------------------------|---------|
| 3.2.1.1 | Seismic Category I .....                                                                     | 3.2-3   |
| 3.2.1.2 | Seismic Category II .....                                                                    | 3.2-4   |
| 3.2.1.3 | Radwaste Seismic.....                                                                        | 3.2-4   |
| 3.2.1.4 | Conventional Seismic.....                                                                    | 3.2-4   |
| 3.2.1.5 | Non-Seismic.....                                                                             | 3.2-5   |
| 3.2.2   | System Quality Group Classification .....                                                    | 3.2-6   |
| 3.2.2.1 | Quality Group A.....                                                                         | 3.2-7   |
| 3.2.2.2 | Quality Group B.....                                                                         | 3.2-7   |
| 3.2.2.3 | Quality Group C.....                                                                         | 3.2-8   |
| 3.2.2.4 | Quality Group D.....                                                                         | 3.2-8   |
| 3.2.2.5 | Quality Group E.....                                                                         | 3.2-9   |
| 3.2.3   | References .....                                                                             | 3.2-204 |
| 3.3     | Wind and Tornado Loadings .....                                                              | 3.3-1   |
| 3.3.1   | Wind Loadings.....                                                                           | 3.3-1   |
| 3.3.1.1 | Design Wind Velocity .....                                                                   | 3.3-1   |
| 3.3.1.2 | Determination of Applied Wind Forces.....                                                    | 3.3-1   |
| 3.3.2   | Tornado Loadings.....                                                                        | 3.3-2   |
| 3.3.2.1 | Applicable Tornado Design Parameters.....                                                    | 3.3-3   |
| 3.3.2.2 | Determination of Tornado Forces on Structures .....                                          | 3.3-3   |
| 3.3.2.3 | Interaction of Non-Seismic Category I<br>Structures with Seismic Category I Structures ..... | 3.3-4   |
| 3.3.3   | References .....                                                                             | 3.3-5   |
| 3.4     | Water Level (Flood) Design.....                                                              | 3.4-1   |
| 3.4.1   | Internal Flood Protection .....                                                              | 3.4-1   |
| 3.4.2   | External Flood Protection .....                                                              | 3.4-3   |
| 3.4.3   | Analysis of Flooding Events .....                                                            | 3.4-4   |
| 3.4.3.1 | Internal Flooding Events.....                                                                | 3.4-4   |
| 3.4.3.2 | External Flooding Events .....                                                               | 3.4-6   |
| 3.4.3.3 | Reactor Building Flooding Analysis.....                                                      | 3.4-7   |
| 3.4.3.4 | Safeguard Buildings Flooding Analysis .....                                                  | 3.4-9   |
| 3.4.3.5 | Fuel Building Flooding Analysis .....                                                        | 3.4-13  |
| 3.4.3.6 | Nuclear Auxiliary Building Flooding Analysis .....                                           | 3.4-15  |
| 3.4.3.7 | Radioactive Waste Building Flooding Analysis .....                                           | 3.4-15  |

|          |                                                                                                                          |        |
|----------|--------------------------------------------------------------------------------------------------------------------------|--------|
| 3.4.3.8  | Emergency Power Generating Buildings<br>Flooding Analysis .....                                                          | 3.4-16 |
| 3.4.3.9  | Essential Service Water Pump Buildings and<br>Essential Service Water Cooling Tower<br>Structures Flooding Analysis..... | 3.4-16 |
| 3.4.3.10 | Ultimate Heat Sink Makeup Water Intake<br>Structure Flooding Analysis.....                                               | 3.4-16 |
| 3.4.3.11 | Permanent Dewatering System.....                                                                                         | 3.4-16 |
| 3.4.4    | Analysis Procedures.....                                                                                                 | 3.4-17 |
| 3.4.5    | References .....                                                                                                         | 3.4-17 |
| 3.5      | Missile Protection .....                                                                                                 | 3.5-1  |
