About the ACCRA Cost of Living Index

C2ER produces the Cost of Living Index to provide a useful and reasonably accurate measure to compare cost of living differences among urban areas. Items on which the Index is based have been carefully chosen to reflect the different categories of consumer expenditures. Weights assigned to relative costs are based on government survey data on expenditure patterns for midmanagement households. All items are priced in each place at a specified time and according to standardized specifications.

Participating Areas

Areas included in this survey are those for which chambers of commerce or similar organizations have volunteered to participate. The number of respondents varies from quarter to quarter, and C2ER makes a continuing effort to expand coverage of metropolitan areas. Any metropolitan area not represented in this report is absent because its chamber of commerce has opted not to collect data. C2ER has no data for areas that do not appear in the report.

Formats Available

The ACCRA Cost of Living Index report is available quarterly in either hard copy or electronic form. A hard copy of the index is a magazine-style publication that is mailed to the shipping address provided. PDF or Excel formats are available for immediate download after the credit card transaction is approved. Single printed copy of reports may be purchased for \$82.5 each or \$165 for four (4) consecutive quarters. The price for a single PDF report is \$75 and four consecutive quarters is \$150. The price for a single Excel report is \$95 and four consecutive quarters is \$250. Subscriptions begin with the current issue unless a subscriber specifies otherwise.

Back Issues

Back issues are available since 1980. Issues from 1980-1989 are available in PDF format only and issues from 1990 to current are available in Excel format.

Subscriptions

Subscriptions to the current or back issues can be ordered at the Online Store or by contacting:
