

NRC FORM 7 (8-2010) 10 CFR 110		U.S. NUCLEAR REGULATORY COMMISSION		APPROVED BY OMB: NO. 3150-0027		EXPIRES: 08/31/2012	
APPLICATION FOR NRC EXPORT OR IMPORT LICENSE, AMENDMENT, OR RENEWAL (See Instructions on Pages 4 and 5)				Estimated burden per response to comply with this mandatory collection request: 2.4 hours. This submittal is reviewed to ensure that the applicable statutory, regulatory, and policy considerations are satisfied. Send comments regarding burden estimate to the Records and FOIA/Privacy Services Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to infocollects.resource@nrc.gov , and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0027), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required, to respond to, the information collection.

ADDITIONAL INFORMATION (Reference applicable block numbers from page 1 and/or page 2 for each entry)

Item 15 Description of Radioactive Material, Sealed Sources, and Nuclear Facilities

No increase in total mass of 6000 tons of material is being requested.

The addition of two new ports of exit is being requested. The first additional port of exit is at Calais, Maine. The second additional port of exit requested is at Pembina, North Dakota. The expected route of exports is by truck primarily by interstate highway from Bear Creek Road to the ports of exit.

Item 15a Max Total Volume/Element Wt (KG), OR Total Activity (TBq)

EnergySolutions is requesting a reapportionment and overall reduction of approximately 3.15 TBq (85 Curies) in activity authorized for export. These activity levels match the import application request.

The revised totals by isotope are as follows, to be applied over the full term of the license.

Radionuclide	Current Limit		Proposed maximum		Net Change	
	TBq	(Ci)	TBq	(Ci)	TBq	(Ci)
H-3	14.8	(400)	37.0	(1000)	+22.2	(+600)
C-14	7.40	(200)	5.55	(150)	-1.85	(-50)
Am-241	9.25	(250)	0.555	(15)	-8.70	(-235)
Fe-55	37.0	(1000)	22.2	(600)	-14.8	(-400)

All individual packages and conveyances prepared for export will contain less than a Category 2 quantity of radioactive material, as defined in Appendix P to 10 CFR 110.

Subject: Application for Amendment to Export License XW010

Dear Mr. Moore:

Duratek (a subsidiary of EnergySolutions) requests an amendment to Export License XW010 as follows:

- Add two additional ports of exit at Calais, Maine and Pembina, North Dakota, and
- Reapportion and reduce the total activity authorized for import. The requested changes will reduce the total activity authorization by 3.15 TBq (85 curies).

An increase in the demand for waste processing and recycling services has necessitated this amendment request. As noted in the attached Form 7, individual packages and conveyances will not constitute Category 1 or 2 quantities, as defined in Appendix P to Part 110. This requested amendment matches the requested amendment to our Import License IW017 which is being submitted at the same time.

A check in the amount of \$9900 for the requested amendment is enclosed.

If you have any questions or need additional information, please do not hesitate to call me at 865-220-1478.

Respectfully submitted,

Philip Gianutsos, CHP
Radiation Safety Officer
Duratek Services, Inc.
