September 13, 2011

Ms. Henryetta Ellis
Absentee-Shawnee Tribe of Oklahoma
2025 S. Gordon Cooper Drive
Shawnee, OK 74801

SUBJECT: REQUEST FOR SCOPING COMMENTS CONCERNING THE LIMERICK
GENERATING STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION
REVIEW

Dear Ms. Ellis:

The U.S. Nuclear Regulatory Commission (NRC or the staff) is reviewing an application to renew the operating licenses for Limerick Generating Station, Units 1 and 2 (Limerick), which are located in Limerick Township of Montgomery County, PA, approximately 35 miles upriver from Philadelphia. Limerick is operated by Exelon Generation Company, LLC (Exelon). The application for renewal was submitted by Exelon in a letter dated June 22, 2011, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54).

As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating licenses for Limerick will expire in October 2024 for Unit 1 and June 2029 for Unit 2. Exelon has no plans to change current operations during the license renewal period, intends to use existing plant facilities and transmission lines, and has no plans to construct or disturb undeveloped portions of the site. According to Exelon, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Since your Tribe has historic ties to Pennsylvania, the NRC is requesting comments on its environmental review. The following Tribal Nations will be contacted for their comments and will receive a copy of this letter: Absentee-Shawnee Tribe of Oklahoma, Cayuga Nation, Delaware Nation, Delaware Tribe, Eastern Shawnee Tribe of Oklahoma, Oneida Indian Nation, Oneida Nation of Wisconsin, Onondaga Nation, Seneca Nation of Indians, Seneca-Cayuga Tribe of Oklahoma, St. Regis Mohawk Tribe, Shawnee Tribe, Stockbridge-Munsee Band of the Mohican Nation of Wisconsin, Tonawanda Seneca Nation, and Tuscarora Nation.

Please submit any comments and questions that you may have on the environmental review by October 29, 2011. Written comments should be submitted by mail to:

Chief, Rules, Announcements, and Directives Branch
Division of Administrative Services
Office of Administration
Mailstop TWB-05-B01M
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Electronic comments may be submitted to the NRC by e-mail to Lisa.Regner@NRC.gov.

The Limerick license renewal application is available on the internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/limerick.html>. Public comments and supporting materials related to this notice can be found at the Federal rulemaking website, <http://www.regulations.gov>, by searching on Docket ID: NRC-2011-0166.

The GEIS, which assesses the scope and impact of environmental effects that would be associated with renewal of any nuclear power plant site, can be found on the NRC's website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/>.

The NRC expects to publish the draft SEIS in August 2012. A copy of the document will be sent to you for your review and comment. After consideration of public comments received, the NRC will prepare a final SEIS, which is scheduled to be issued in February 2013. If you have any questions concerning the NRC's review of this license renewal application, please contact Mrs. Lisa Regner, Senior Project Manager, at 301-415-1906 or by e-mail at Lisa.Regner@NRC.gov.

Sincerely,

David J Wrona, Chief
Projects Branch 2
Division of License Renewal
Office of Nuclear Reactor Regulation

GENERATING STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION
REVIEW

Dear Ms. Burke:

The U.S. Nuclear Regulatory Commission (NRC or the staff) is reviewing an application to renew the operating licenses for Limerick Generating Station, Units 1 and 2 (Limerick), which are located in Limerick Township of Montgomery County, PA, approximately 35 miles upriver from Philadelphia. Limerick is operated by Exelon Generation Company, LLC (Exelon). The application for renewal was submitted by Exelon in a letter dated June 22, 2011, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54).

As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating licenses for Limerick will expire in October 2024 for Unit 1 and June 2029 for Unit 2. Exelon has no plans to change current operations during the license renewal period, intends to use existing plant facilities and transmission lines, and has no plans to construct or disturb undeveloped portions of the site. According to Exelon, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Since your Tribe has historic ties to Pennsylvania, the NRC is requesting comments on its environmental review. The following Tribal Nations will be contacted for their comments and will receive a copy of this letter: Absentee-Shawnee Tribe of Oklahoma, Cayuga Nation, Delaware Nation, Delaware Tribe, Eastern Shawnee Tribe of Oklahoma, Oneida Indian Nation, Oneida Nation of Wisconsin, Onondaga Nation, Seneca Nation of Indians, Seneca-Cayuga Tribe of Oklahoma, St. Regis Mohawk Tribe, Shawnee Tribe, Stockbridge-Munsee Band of the Mohican Nation of Wisconsin, Tonawanda Seneca Nation, and Tuscarora Nation.

Please submit any comments and questions that you may have on the environmental review by October 29, 2011. Written comments should be submitted by mail to:

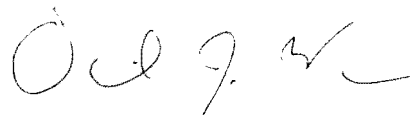

Chief, Rules, Announcements, and Directives Branch
Division of Administrative Services
Office of Administration
Mailstop TWB-05-B01M
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Electronic comments may be submitted to the NRC by e-mail to Lisa.Regner@NRC.gov. The Limerick license renewal application is available on the internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/limerick.html>. Public comments and supporting materials related to this notice can be found at the Federal rulemaking website, <http://www.regulations.gov>, by searching on Docket ID: NRC-2011-0166.

The GEIS, which assesses the scope and impact of environmental effects that would be associated with renewal of any nuclear power plant site, can be found on the NRC's website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/>.

The NRC expects to publish the draft SEIS in August 2012. A copy of the document will be sent to you for your review and comment. After consideration of public comments received, the NRC will prepare a final SEIS, which is scheduled to be issued in February 2013. If you have any questions concerning the NRC's review of this license renewal application, please contact Mrs. Lisa Regner, Senior Project Manager, at 301-415-1906 or by e-mail at Lisa.Regner@NRC.gov.

WASHINGTON, D.C. 20555-0001

September 13, 2011

Mr. Tony Gonyea, Faithkeeper
Onondaga Nation
Hemlock Rd 11a Box 319-B
via Nedrow, NY 13120

SUBJECT: REQUEST FOR SCOPING COMMENTS CONCERNING THE LIMERICK
GENERATING STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION
REVIEW

Dear Mr. Gonyea:

The U.S. Nuclear Regulatory Commission (NRC or the staff) is reviewing an application to renew the operating licenses for Limerick Generating Station, Units 1 and 2 (Limerick), which are located in Limerick Township of Montgomery County, PA, approximately 35 miles upriver from Philadelphia. Limerick is operated by Exelon Generation Company, LLC (Exelon). The application for renewal was submitted by Exelon in a letter dated June 22, 2011, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54).

As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating licenses for Limerick will expire in October 2024 for Unit 1 and June 2029 for Unit 2. Exelon has no plans to change current operations during the license renewal period, intends to use existing plant facilities and transmission lines, and has no plans to construct or disturb undeveloped portions of the site. According to Exelon, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Since your Tribe has historic ties to Pennsylvania, the NRC is requesting comments on its environmental review. The following Tribal Nations will be contacted for their comments and will receive a copy of this letter: Absentee-Shawnee Tribe of Oklahoma, Cayuga Nation, Delaware Nation, Delaware Tribe, Eastern Shawnee Tribe of Oklahoma, Oneida Indian Nation, Oneida Nation of Wisconsin, Onondaga Nation, Seneca Nation of Indians, Seneca-Cayuga Tribe of Oklahoma, St. Regis Mohawk Tribe, Shawnee Tribe, Stockbridge-Munsee Band of the Mohican Nation of Wisconsin, Tonawanda Seneca Nation, and Tuscarora Nation.

T. Gonyea

Please submit any comments and questions that you may have on the environmental review by October 29, 2011. Written comments should be submitted by mail to:

Chief, Rules, Announcements, and Directives Branch
Division of Administrative Services
Office of Administration
Mailstop TWB-05-B01M
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Electronic comments may be submitted to the NRC by e-mail to Lisa.Regner@NRC.gov. The Limerick license renewal application is available on the internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/limerick.html>. Public comments and supporting materials related to this notice can be found at the Federal rulemaking website, <http://www.regulations.gov>, by searching on Docket ID: NRC-2011-0166.

The GEIS, which assesses the scope and impact of environmental effects that would be associated with renewal of any nuclear power plant site, can be found on the NRC's website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/>.

The NRC expects to publish the draft SEIS in August 2012. A copy of the document will be sent to you for your review and comment. After consideration of public comments received, the NRC will prepare a final SEIS, which is scheduled to be issued in February 2013. If you have any questions concerning the NRC's review of this license renewal application, please contact Mrs. Lisa Regner, Senior Project Manager, at 301-415-1906 or by e-mail at Lisa.Regner@NRC.gov.

Sincerely,

David J Wrona, Chief

SUBJECT: REQUEST FOR SCOPING COMMENTS CONCERNING THE LIMERICK
GENERATING STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION
REVIEW

Dear Ms. Watt:

The U.S. Nuclear Regulatory Commission (NRC or the staff) is reviewing an application to renew the operating licenses for Limerick Generating Station, Units 1 and 2 (Limerick), which are located in Limerick Township of Montgomery County, PA, approximately 35 miles upriver from Philadelphia. Limerick is operated by Exelon Generation Company, LLC (Exelon). The application for renewal was submitted by Exelon in a letter dated June 22, 2011, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54).

As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating licenses for Limerick will expire in October 2024 for Unit 1 and June 2029 for Unit 2. Exelon has no plans to change current operations during the license renewal period, intends to use existing plant facilities and transmission lines, and has no plans to construct or disturb undeveloped portions of the site. According to Exelon, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Since your Tribe has historic ties to Pennsylvania, the NRC is requesting comments on its environmental review. The following Tribal Nations will be contacted for their comments and will receive a copy of this letter: Absentee-Shawnee Tribe of Oklahoma, Cayuga Nation, Delaware Nation, Delaware Tribe, Eastern Shawnee Tribe of Oklahoma, Oneida Indian Nation, Oneida Nation of Wisconsin, Onondaga Nation, Seneca Nation of Indians, Seneca-Cayuga Tribe of Oklahoma, St. Regis Mohawk Tribe, Shawnee Tribe, Stockbridge-Munsee Band of the Mohican Nation of Wisconsin, Tonawanda Seneca Nation, and Tuscarora Nation.

REVIEW

Dear Mr. Barton:

The U.S. Nuclear Regulatory Commission (NRC or the staff) is reviewing an application to renew the operating licenses for Limerick Generating Station, Units 1 and 2 (Limerick), which are located in Limerick Township of Montgomery County, PA, approximately 35 miles upriver from Philadelphia. Limerick is operated by Exelon Generation Company, LLC (Exelon). The application for renewal was submitted by Exelon in a letter dated June 22, 2011, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54).

As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating licenses for Limerick will expire in October 2024 for Unit 1 and June 2029 for Unit 2. Exelon has no plans to change current operations during the license renewal period, intends to use existing plant facilities and transmission lines, and has no plans to construct or disturb undeveloped portions of the site. According to Exelon, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Since your Tribe has historic ties to Pennsylvania, the NRC is requesting comments on its environmental review. The following Tribal Nations will be contacted for their comments and will receive a copy of this letter: Absentee-Shawnee Tribe of Oklahoma, Cayuga Nation, Delaware Nation, Delaware Tribe, Eastern Shawnee Tribe of Oklahoma, Oneida Indian Nation, Oneida Nation of Wisconsin, Onondaga Nation, Seneca Nation of Indians, Seneca-Cayuga Tribe of Oklahoma, St. Regis Mohawk Tribe, Shawnee Tribe, Stockbridge-Munsee Band of the Mohican Nation of Wisconsin, Tonawanda Seneca Nation, and Tuscarora Nation.

Please submit any comments and questions that you may have on the environmental review by October 29, 2011. Written comments should be submitted by mail to:

REVIEW

Dear Ms. Jumper:

The U.S. Nuclear Regulatory Commission (NRC or the staff) is reviewing an application to renew the operating licenses for Limerick Generating Station, Units 1 and 2 (Limerick), which are located in Limerick Township of Montgomery County, PA, approximately 35 miles upriver from Philadelphia. Limerick is operated by Exelon Generation Company, LLC (Exelon). The application for renewal was submitted by Exelon in a letter dated June 22, 2011, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54).

As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating licenses for Limerick will expire in October 2024 for Unit 1 and June 2029 for Unit 2. Exelon has no plans to change current operations during the license renewal period, intends to use existing plant facilities and transmission lines, and has no plans to construct or disturb undeveloped portions of the site. According to Exelon, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Since your Tribe has historic ties to Pennsylvania, the NRC is requesting comments on its environmental review. The following Tribal Nations will be contacted for their comments and will receive a copy of this letter: Absentee-Shawnee Tribe of Oklahoma, Cayuga Nation, Delaware Nation, Delaware Tribe, Eastern Shawnee Tribe of Oklahoma, Oneida Indian Nation, Oneida Nation of Wisconsin, Onondaga Nation, Seneca Nation of Indians, Seneca-Cayuga Tribe of Oklahoma, St. Regis Mohawk Tribe, Shawnee Tribe, Stockbridge-Munsee Band of the Mohican Nation of Wisconsin, Tonawanda Seneca Nation, and Tuscarora Nation.

REVIEW

Dear Chief Hill:

The U.S. Nuclear Regulatory Commission (NRC or the staff) is reviewing an application to renew the operating licenses for Limerick Generating Station, Units 1 and 2 (Limerick), which are located in Limerick Township of Montgomery County, PA, approximately 35 miles upriver from Philadelphia. Limerick is operated by Exelon Generation Company, LLC (Exelon). The application for renewal was submitted by Exelon in a letter dated June 22, 2011, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54).

As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating licenses for Limerick will expire in October 2024 for Unit 1 and June 2029 for Unit 2. Exelon has no plans to change current operations during the license renewal period, intends to use existing plant facilities and transmission lines, and has no plans to construct or disturb undeveloped portions of the site. According to Exelon, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Since your Tribe has historic ties to Pennsylvania, the NRC is requesting comments on its environmental review. The following Tribal Nations will be contacted for their comments and will receive a copy of this letter: Absentee-Shawnee Tribe of Oklahoma, Cayuga Nation, Delaware Nation, Delaware Tribe, Eastern Shawnee Tribe of Oklahoma, Oneida Indian Nation, Oneida Nation of Wisconsin, Onondaga Nation, Seneca Nation of Indians, Seneca-Cayuga Tribe of Oklahoma, St. Regis Mohawk Tribe, Shawnee Tribe, Stockbridge-Munsee Band of the Mohican Nation of Wisconsin, Tonawanda Seneca Nation, and Tuscarora Nation.

Please submit any comments and questions that you may have on the environmental review by October 29, 2011. Written comments should be submitted by mail to:

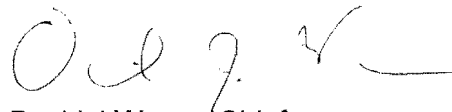

Chief, Rules, Announcements, and Directives Branch
Division of Administrative Services
Office of Administration
Mailstop TWB-05-B01M
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Electronic comments may be submitted to the NRC by e-mail to Lisa.Regner@NRC.gov. The Limerick license renewal application is available on the internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/limerick.html>. Public comments and supporting materials related to this notice can be found at the Federal rulemaking website, <http://www.regulations.gov>, by searching on Docket ID: NRC-2011-0166.

The GEIS, which assesses the scope and impact of environmental effects that would be associated with renewal of any nuclear power plant site, can be found on the NRC's website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/>.

The NRC expects to publish the draft SEIS in August 2012. A copy of the document will be sent to you for your review and comment. After consideration of public comments received, the NRC will prepare a final SEIS, which is scheduled to be issued in February 2013. If you have any questions concerning the NRC's review of this license renewal application, please contact Mrs. Lisa Regner, Senior Project Manager, at 301-415-1906 or by e-mail at Lisa.Regner@NRC.gov.

Sincerely,

David J Wrona, Chief

SUBJECT: REQUEST FOR SCOPING COMMENTS CONCERNING THE LIMERICK
GENERATING STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION
REVIEW

Dear Mr. Patterson:

The U.S. Nuclear Regulatory Commission (NRC or the staff) is reviewing an application to renew the operating licenses for Limerick Generating Station, Units 1 and 2 (Limerick), which are located in Limerick Township of Montgomery County, PA, approximately 35 miles upriver from Philadelphia. Limerick is operated by Exelon Generation Company, LLC (Exelon). The application for renewal was submitted by Exelon in a letter dated June 22, 2011, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54).

As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating licenses for Limerick will expire in October 2024 for Unit 1 and June 2029 for Unit 2. Exelon has no plans to change current operations during the license renewal period, intends to use existing plant facilities and transmission lines, and has no plans to construct or disturb undeveloped portions of the site. According to Exelon, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Since your Tribe has historic ties to Pennsylvania, the NRC is requesting comments on its environmental review. The following Tribal Nations will be contacted for their comments and will receive a copy of this letter: Absentee-Shawnee Tribe of Oklahoma, Cayuga Nation, Delaware Nation, Delaware Tribe, Eastern Shawnee Tribe of Oklahoma, Oneida Indian Nation, Oneida Nation of Wisconsin, Onondaga Nation, Seneca Nation of Indians, Seneca-Cayuga Tribe of Oklahoma, St. Regis Mohawk Tribe, Shawnee Tribe, Stockbridge-Munsee Band of the Mohican Nation of Wisconsin, Tonawanda Seneca Nation, and Tuscarora Nation.

N. Patterson

Please submit any comments and questions that you may have on the environmental review by October 29, 2011. Written comments should be submitted by mail to:

Chief, Rules, Announcements, and Directives Branch
Division of Administrative Services
Office of Administration
Mailstop TWB-05-B01M
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Electronic comments may be submitted to the NRC by e-mail to Lisa.Regner@NRC.gov.

The Limerick license renewal application is available on the internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/limerick.html>. Public comments and supporting materials related to this notice can be found at the Federal rulemaking website, <http://www.regulations.gov>, by searching on Docket ID: NRC-2011-0166.

The GEIS, which assesses the scope and impact of environmental effects that would be associated with renewal of any nuclear power plant site, can be found on the NRC's website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/>.

The NRC expects to publish the draft SEIS in August 2012. A copy of the document will be sent to you for your review and comment. After consideration of public comments received, the NRC will prepare a final SEIS, which is scheduled to be issued in February 2013. If you have any questions concerning the NRC's review of this license renewal application, please contact Mrs. Lisa Regner, Senior Project Manager, at 301-415-1906 or by e-mail at Lisa.Regner@NRC.gov.

Sincerely,

David J Wrona, Chief
Projects Branch 2
Division of License Renewal
Office of Nuclear Reactor Regulation
