

Members of the Halden Reactor Project

The members of the Halden Reactor Project (HRP) include both signatory members and associated party members, as listed below. Each country that is part of the Organisation for Economic Co-operation and Development has one signatory member in the HRP, and an unlimited number of associated parties can join the HRP. Signatory members have representatives on the Halden Board of Management and the Halden Program Group and have voting power. Representatives from associated party members may attend meetings of the Halden Board of Management and the Halden Program Group, but they have no vote on issues addressed by those bodies.
