SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. Goree:

In a letter dated April 27, 2011, Liesje Myers, Radiation Safety Officer, Boone Hospital Center, NRC license number 24-01565-01, contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license, NRC license number 24-32061-01. A copy of NRC Form 314, signed by you on April 27, 2011, was attached to that letter. The NRC staff has reviewed your submission. Based on its review, the staff has concluded that all licensable radioactive material has been transferred from Boone Hospital Cardiac Diagnostic Center (formerly MCS-ODS, LLC, d/b/a Missouri Heart Center), NRC license number 24-32061-01, to Boone Hospital Center, NRC license number 24-01565-01.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required, on your part. NRC license number 24-32061-01 is hereby terminated.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
