I tried to send this yesterday, but for some reason, it didn't work. I got your e-mail saying that you now have the video file for the main hearing. Shall I transfer Pat Marida's video to you the same way?

---Joe

Dear Ms. Cooper,

I have sent you a notification through transferbigfiles.com that will allow you to download a complete copy of the file that was on the data stick. It should be a simple matter for you to download the video file to your computer.

If this is satisfactory, then we can transfer Pat Marida's video in the same manner.

Did you receive a copy of the transcript that I sent to Cindy Blady's office?

I had also sent her a data stick. In addition to the video file, her data stick had electronic copies of the supporting documents such as Professor Compaan's slide show and Kevin Camp's summary of the history of Davis-Besse. I can also send you these files as an attachment if you need them.

The YouTube videos have been edited slightly. You can certainly use them for reference, but the complete file has the whole hearing from beginning to end with only the addition of the time

references and subtitles.

I'm afraid this experience has shaken my confidence in the Postal Service. Thank you for giving us this opportunity to resubmit the files.

Sincerely,

Joseph DeMare

Mr. DeMare,

Good morning. I'm going through the list of items that were sent to the NRC and there are a few things that if possible I'd like to coordinate with you.

The flash drive was somehow damaged in the mail. The plastic that slides the USB connection out of the drive was cracked and it shattered when I tried to extend the connection. The drive I believe through our past conversations only had the video of the meeting. I did a search with my personal computer and noticed that 15 pieces of the video were posted on YouTube. Is this the complete meeting and can I have your permission to use these pieces as the formal submission of the video?

The DVD labeled "Davis-Besse License Renewal, Comments, Dec. 11, 2010 " also arrived with minor damage. The DVD itself became warped and will not lie flat in order to be read. The DVD labeled "Testimony, Collected by Pat Marida 12-11-10 in Columbus, Ohio" arrived with no data burned on to it.

The NRC has a maximum total attachment size of 10MB (8 MB to be safe). Would it be possible to have these items that were intended to be on the DVD's mailed directly to this Email?

Let me know if you have a different preferred method of resubmitting this information. You can reply via email or call me directly at 301.415.2323.

Respectfully,

Paula E. Cooper

Subject: People's Hearing Transcript.

Dear Ms. Cooper,

I have completed a transcript of the hearing that we held in Toledo on December 18 regarding the Davis-Besse relicensing application. [Docket No. 50-346; NRC-2010-0298]

Since the Federal Register Notice of October 28 says, "To be considered, comments must be provided either at the transcribed public meetings or in writing..." I thought it best that I send the transcript, as well as another copy of the video files and the supporting documentation that I sent to you earlier, to Cindy Blady, Chief of the Rules, Announcements and Directives Branch as described in the Register.

That was sent today. If you like, I can send you a text file of the transcript so that you don't have to wait for whatever internal machinations
