Subject: Friday

Hi Mike - we tried to email the above flyer to Brian Harris and Paula Cooper but we were having issues with the email. We just wanted to make sure the NRC staff is aware of this.

Thanks!

Speak truth to nuclear power demonstration!

FRI. APRIL 15 at 5:00pm, at the corner of Wooster and Thurstin,

Bowling Green, Ohio. Make a sign and stand with us for an hour or so, bring a friend, spread the word, and help make sure that the truth of nuclear power is not swept under the rug.

Stop the spin!

Despite the ever growing disaster at the Fukushima Daichi nuclear power plant the spin continues... and the lie that nuclear power is safe has become the mantra of virtually all the mainstream press.

RADIATION AT A MILLION TIMES THE “ACCEPTABLE” LEVEL has been detected at Fukushima Daichi. We can't let that happen in Lake Erie! The Davis Besse nuclear power plant in Oak Harbor Oh. has one of the worst safety records in the country yet the NRC refuses to consider that history in deciding whether to grant a 20 year license extension. The NRC has granted all requests to relicense nuclear power plants, and they will re-license Davis Besse if we do not make it clear that we will not allow our communities to be poisoned for that sake of First Energy's profits.

We will gather along the corner of Wooster and Thurstin with signs then march to B.G. St. Univ. President Dr. Carol Cartwright's office, she is on the Board Of Directors of First Energy with a letter requesting that she join us in a call for a moratorium on nuclear power. After the demonstration we will meet for a forum on Nuclear power, and an update on Davis Besse. More information on this will be provided at the demonstration.

This event is a collaboration of concerned individuals and community groups and is sponsored on the B.G.S.U campus by RHEZOME, for more information contact Anita Rios, co-chair of the Green Party of Ohio, rhamnon@toast.net. For more information on RHEZOME contact:
