SUBJECT Discuss August 5, 2011 letter from D. Olson to U.S. NRC (letter was addressed to B. Brach, Director of SFPO)				
SUMMARY				
<p>A bridge line was set up 8/18/11 to have a teleconference between Donald Olson of Columbiana Hi Tech LLC and K. Hardin and J. Borowsky of U.S. NRC.</p> <p>The telecom started at 9:00 am, 8/22/11. D. Olson introduced two Columbiana Hi Tech LLC colleagues: B. Hypes and R. Felts.</p> <p>K. Hardin and J. Borowsky stated the following:</p> <p>1) The rev. 7 consolidated safety analysis report (SAR) should be sent to the U.S. NRC Document Control Desk and V. Ordaz, Director of Spent Fuel Storage and Transportation. The consolidated SAR would help with the review. Columbiana Hi Tech LLC agreed to send two copies of the rev. 7 consolidated SAR.</p> <p>2) Attachment B "Explanation of Changes" of the subject August 5, 2011 letter states that it is necessary to perform a liquid penetrant examination of an optional elbow fitting only if the leak test fails. Section 8.2 (h) of the SAR states that the elbow fitting should be inspected yearly "... by successful leak testing or using liquid penetrant examination ..." NRC felt that Section 8.2 (h) would be more clearly written if it was further explained that the liquid penetrant examination was to occur if the leak testing was not successful, as described in the "Explanation of Changes". Columbiana Hi Tech LLC agreed to clarify Section 8.2 (h) of the SAR.</p>				
ACTION REQUIRED				
No NRC action is required. Columbiana Hi Tech LLC is to send copies of the rev. 7 consolidated SAR and provide further clarification of Section 8.2 (h) of the SAR.
