Subject: **Amendment to NRC License No. 04-27766-01
Change of Radiation Safety Officer**

G Force received a violation for failure to change the radiation safety officer. Mr. Scott Larson was the RSO for our firm and is no longer employed with G Force.

I would like to request a change in our Radiation Safety Officer from Mr. Larson to Mr. Ricardo Hernandez. Mr. Larson left our firm more than 30 days ago and Mr. Hernandez has been serving and has been approved as our California Department of Public Health recognized RSO. Our federal license number is 04-27766-01. We have been served with a notice of violation of license condition 12 for not having a current NRC recognized RSO and would like to request an expedited change if possible.

G Force portable gauges have not and shall not be used in NRC jurisdiction until Mr. Ricardo Hernandez is approved as our Radiation Safety Officer by the NRC.

If you have any questions regarding the contents of this letter, please do not hesitate to contact us at 619-583-6633.

Respectfully submitted,

Subject: **Amendment to NRC License No. 04-27766-01
Change of Radiation Safety Officer**

Mr. Torres,

Per to your email of Tuesday, August 23, 2011 in consideration of our letter dated Friday, August 19, 2011, G Force is responding to the following concerns:

Date of Mr. Larson's Termination from G Force:

Mr. Larson was terminated on February 10, 2010 due to economic circumstances and reorganization. His position of Manager of Engineering was eliminated in an effort to reduce costs as a result of a loss in project work.

Gauge Usage under Federal Jurisdiction:

Prior to Mr. Larson's termination and continuing until this day, no gauges were used in Federal jurisdiction. G Force had no direct work which would require the use of these gauges on property under Federal jurisdiction. Because of the lack of federal projects, it was decided to not amend to change the RSO for the NRC license.

G Force is anticipating an upcoming project requirement that will require the usage of the gauges on property under Federal jurisdiction and requesting an expedited change to the RSO in order to renew the NRC license. G Force will continue to not use the gauges on property under Federal jurisdiction until the amended change to the RSO is made and the NRC license has been renewed.

If you have any questions regarding the contents of this letter, please do not hesitate to contact us at 619-583-6633.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'W. Ulmer'.
