Subject: Davis Besse Environmental Audit

Brian,

The Nuclear Regulatory Commission is holding an Environmental Audit the week of March 7, 2011. The purpose of the audit is to research the potential environmental impacts of the renewed license of the Davis-Besse Nuclear Power station.

We would like to extend an invitation to a representative of your staff to attend the site audit.

The onsite days will be March 8-10 with the General Site tour occurring on March 8th and an info session at the Ottawa National Park on March 10th. A complete audit schedule can be forwarded to your office if you are interested.

Please let me know by February 28th if there is anyone interested in attending. If you have any questions please do not hesitate to contact me.

Respectfully,

Paula E. Cooper
