Dear Mr. Arnold:

On February 6, 1981, NRC contractor personnel, met with Mr. K. Young of your staff to discuss the environmental monitoring data for the Duane Arnold Station. As a result of information provided by your staff at the meeting, we have prepared an updated list of materials needed for assessment of impacts of operation of the Duane Arnold Station. We have included a copy of the list and request that you provide directly to the contractor, Environmental Science and Engineering (ESE), a copy of the items which you have available or have access to.

The receipt of the list materials will greatly aid the review of the environmental monitoring programs which you have carried out since the commencement of operation of the Duane Arnold Station.

Sincerely,

Original Signed by
