Re: Duane Arnold Energy Center

Subject: Response to Inspection Report 81-14

Reference: 1) Letter DAEC 81-412 dated August 12, 1981
2) NRC Region III letter of August 14, 1981

File: A-102, NRC-4, Inspection Report 81-14

Dear Mr. Keppler:

Our letter of August 12, 1981 (reference 1) transmitted information regarding Iowa Electric actions concerning quantification of radioactivity on charcoal absorbers and gas quantification problems. Those items were subsequently discussed as items (2) and (3) of your letter of August 14, 1981 (reference 2). Our letter did not reference your inspection report because our letter was issued prior to the issuance of the inspection report.

The purpose of this letter is to document that reference (1) provided response to items (2) and (3) of reference (2), as discussed with members of your staff.

Please contact us if there are any questions.

Very truly yours,

Larry D. Root
