ATTN: Mr. Lee Liu
Chairman of the Board
and Chief Executive
Officer

IE Towers
P. O. Box 351
Cedar Rapids, IA 52406

Dear Mr. Liu:

This letter refers to the followup inspection conducted by Mr. G. M. Hausman and other NRC representatives of this office during December 9-13, 1991. The purpose of this inspection was to review your implementation of commitments pertaining to Regulatory Guide (RG) 1.97 at the Duane Arnold Energy Center. An initial RG 1.97 inspection was attempted during March 11-15, 1991, but was stopped when we determined that your RG 1.97 activities were not adequately completed for us to perform the inspection. At the conclusion of the followup inspection, we discussed our inspection findings with Mr. D. Mineck and others of your staff.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, we selectively examined procedures and representative records, made observations, and conducted interviews with your personnel.

We did not identify any violations of NRC requirements during the inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, we are sending a copy of this letter and the enclosed inspection report to the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Original signed by D. H. Danielson (for)
