Re: Duane Arnold Energy Center
Subject: Anticipated Transients
Without Scram
Ref: A. Giambusso ltr to D. Arnold
October 11, 1973

Dear Mr. Giambusso:

We have reviewed the Regulatory Staff's Technical Report on Anticipated Transients Without Scram (WASH 1270) as requested by the referenced letter. The Duane Arnold Energy Center comes under classification IB of the Staff's position.

In view of the advanced state of construction and pending operation of the facility, we are electing the implementing provisions of Section IIB. We are working with our NSSS supplier to respond by October 1, 1974 with the required analysis.

Very truly yours,

Charles W. Sandford
