Dear Mr. Giambusso:

The General Electric Company has submitted to the Commission a generic report (NEDM-10735, "Densification Considerations in BWR Fuel Design and Performance", dated December 1972) that addresses the subject of fuel densification.

We find the report to be applicable to the Duane Arnold Energy Center. The report should be referenced as response to your request for information on potential fuel densification effects.

Very truly yours,

Larry D. Root
