Mr. George Lear, Chief
Operating Reactors Branch 3
Division of Operating Reactors
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Lear:

On January 7, 1976, you made a request for further information as a result of your review of the final report on the Mark I Containment Evaluation Short Term Program and the proposed Long Term Program. General Electric letter (E. A. Hughes to V. Stello) of April 30, 1976 transmitted responses to approximately 50% of these questions for the Mark I Owners Group.

We have reviewed the information presented in General Electric's response and have concluded that it is applicable to the Duane Arnold Energy Center. We hereby request that the subject response be made an official part of our Docket No. 50-331.

Three signed originals and 37 copies of this letter are transmitted herewith. This letter is true and accurate to the best of my knowledge and belief.
