50-331

SUBJECT: Core Limits Violation Report

FILE: J 40b

Dear Mr. Keppler:

Prior to the December 16, 1975 issuance of Amendment No. 15 to Operating License DPR-49 a quarterly report summarizing core limits violations was required in accordance with paragraph 4.12.D of Technical Specification changes submitted August 9, 1974 and by the Modification of License of December 27, 1974. The most recent summary submitted to your office covered core limits violations thru November 4, 1975.

This letter is to inform you that for the period from November 4, 1975 to December 16, 1975 no core limits violations occurred. All core limits violations occurring after the December 16, 1975 issuance of Operating License Amendment No. 15 will be reported in accordance with specification 3.12.D of Appendix A to Operating License DPR-49, Technical Specifications and Bases.

Very truly yours,

E. L. Hammond
