Dear Mr. Keppler:

I have received your request to have one of your inspectors review the Management Review that we executed relative to the DAEC Management Control.

Quite frankly, I fail to understand your insistence upon his review of this document since personnel moves are a highly sensitive part of any management activity.

However, I would be more than willing to discuss this with your inspector and should he be able to assure me of his sensitivity to this type of a review and his in-depth understanding of corporate management, I would be more than happy to discuss in detail the entire review with the inspector.

Sincerely,

Chairman of the Board and President
