

September 29, 2011

The Honorable Joseph I. Lieberman
Chairman, Committee on Homeland
Security and Governmental Affairs
United States Senate
Washington, D.C. 20510

Dear Mr. Chairman:

In accordance with 31 U.S.C. 720, I have enclosed the U.S. Nuclear Regulatory Commission's statement of actions taken in response to the recommendations in the Government Accountability Office (GAO) report GAO-11-565, "Data Center Consolidation: Agencies Need to Complete Inventories and Plans to Achieve Expected Savings," issued July 2011.

Please contact Ms. Rebecca L. Schmidt, Director, Office of Congressional Affairs, at (301) 415-1776, if you have any questions.

Sincerely,

/RA/

Gregory B. Jaczko

Enclosure:
As stated

cc: Senator Susan M. Collins

September 29, 2011

The Honorable Darrell Issa
Chairman, Committee on Oversight
and Governmental Reform
United States House of Representatives
Washington, D.C. 20515

Washington, D.C. 20515
cc: Representative Elijah E. Cummings

**U.S. NUCLEAR REGULATORY COMMISSION'S STATEMENT
OF ACTIONS TAKEN IN RESPONSE TO THE
RECOMMENDATIONS IN GAO-11-565**

The Government Accountability Office (GAO), in GAO-11-565, "Data Center Consolidation: Agencies Need to Complete Inventories and Plans to Achieve Expected Savings," made two recommendations to the U.S. Nuclear Regulatory Commission (NRC) on data center consolidation efforts. NRC's responses to these two recommendations follow:

1. **Recommendation:** The secretaries and agency heads of the Departments of Agriculture, Commerce, Defense, Education, Energy, Health and Human Services, Homeland Security, Interior, Justice, Labor, State, Transportation, Treasury, and Veterans Affairs; the Environmental Protection Agency, the General Services Administration, the National Aeronautics and Space Administration, the National Science Foundation, the Nuclear Regulatory Commission, the Office of Personnel Management, the Small Business Administration, the Social Security Administration, and the U.S. Agency for International Development should direct their component agencies and their data center consolidation program managers to complete the missing elements in their respective data center consolidation inventories and plans.

NRC Response: The NRC agrees with this recommendation.

Actions

In June 2011, the NRC completed "key inventory elements" by fully assessing the number of virtual hosts and virtual operating systems in the NRC information technology environment, and reported to the Office of Management and Budget. The NRC is in the initial stages of the consolidation effort and will complete the "key plan elements" that were identified by GAO for inclusion in the consolidation plan by March 2012.

2. **Recommendation:** The secretaries and agency heads of the Departments of Agriculture, Commerce, Defense, Education, Energy, Health and Human Services, Homeland Security, Interior, Justice, Labor, State, Transportation, Treasury, and Veterans Affairs; the Environmental Protection Agency, the General Services Administration, the National Aeronautics and Space Administration, the National Science Foundation, the Nuclear Regulatory Commission, the Office of Personnel Management, the Small Business Administration, the Social Security Administration, and the U.S. Agency for International Development should require their data center consolidation program managers to consider consolidation challenges and lessons learned when updating their consolidation plans.

NRC Response: The NRC agrees with this recommendation.

Actions

The NRC has captured appropriate challenges and lessons learned from Federal and State governments, as well as private industry sources. The NRC will leverage information collected to ensure that known risks are identified, prioritized, and mitigated to the greatest extent possible. A risk management matrix with associated mitigation strategies will be completed by January 2012.
