

September 16, 2011

APPLICANT: DOMINION VIRGINIA POWER

FACILITY: NORTH ANNA, UNIT 3 COMBINED LICENSE APPLICATION

SUBJECT: SUMMARY OF THE AUGUST 18, 2011, CLOSED MEETING WITH DOMINION VIRGINIA POWER TO DISCUSS PHYSICAL SECURITY INFORMATION PROVIDED IN ITS NORTH ANNA, UNIT 3 COMBINED LICENSE APPLICATION

On August 18, 2011, a closed meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of Dominion Virginia Power (Dominion). A meeting notice was issued on July 25, 2011, and was documented in the Agencywide Documents Access and Management System (ADAMS) under accession number ML112020386. The purpose of the meeting was to discuss and clarify the North Anna, Unit 3, Physical Security Protection Systems Report (PSPSR) submitted to the NRC staff as part of the North Anna, Unit 3, combined license application (COLA). A list of attendees is provided as an enclosure.

At the start of the meeting, Dominion provided an overview of its PSPSR, which contains Safeguards Information (SGI). Dominion outlined the changes that were made from the original document, which was submitted on May 26, 2011 under Part 8, Security, for the North Anna, Unit 3 COLA, to the current version, Revision 1, submitted on August 3, 2011. The remainder of the meeting involved SGI discussion based on information provided in both the North Anna, Unit 3 PSPSR and the North Anna, Unit 3 Physical Security Plan (PSP) which was also submitted under Part 8, Security, of the North Anna, Unit 3 COLA. It was understood by all in attendance that the NRC staff will review the revised PSPSR, and continue its review of the PSP. New Request for Additional Information (RAI) questions are expected upon completion of these reviews. There were no new RAIs generated from this meeting.
