Docket No.: 50-331  
Op. License No: DPR-49  
Transmittal of the Final Report for the  
Safety System Functional Inspection of  
the High Pressure Coolant Injection System  
File: A-103, E-41

Dear Mr. Davis:

During our October 14, 1988 meeting with your staff, we agreed to forward to you a copy of the results of our self-initiated Safety System Functional Inspection (SSFI) of the High Pressure Coolant Injection system at the Duane Arnold Energy Center (DAEC). Attached is a copy of the SSFI final report. Background material related to this report is available at the DAEC for your information.

Actions have already been taken to address many of the observations which resulted from the inspection effort. Programmatic improvements have been initiated to address other observations and some additional programs are under review. After actions have been identified to address all issues raised by this inspection, we will schedule a meeting with your staff to inform them of our intended responses.
