

## **SAFEGUARDS INFORMATION**

September 6, 2011

Mr. Michael J. Pacilio  
President & Chief Nuclear Officer  
Exelon Nuclear  
Clinton Power Station  
4300 Winfield Road  
Warrenville, IL 60555

SUBJECT: CLINTON POWER STATION – NRC SECURITY INSPECTION REPORT  
05000461/2011202

Dear Mr. Pacilio:

On July 22, 2011, the U.S. Nuclear Regulatory Commission (NRC) completed a security baseline inspection at your Clinton Power Station. The inspection covered one or more of the key attributes of the security cornerstone of the NRC's Reactor Oversight Process. The enclosed inspection report documents the inspection results, which were discussed via telephone on July 26, 2011, with Mr. Keith Taber, and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

No findings of significance were identified.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Website at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). However, because of the security-related concerns contained in the enclosure, and in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, a copy of this letter's enclosure will not be available for public inspection.

In accordance with 10 CFR Paragraph 2.390(b)(1)(ii), the NRC is waiving the affidavit requirements for your response, if any. This practice will ensure that your response will not be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system, ADAMS. If Safeguards Information is necessary to provide an acceptable response, please provide the level of protection described in 10 CFR 73.21.

<p>The enclosure transmitted herewith contains Safeguards Information. When separated from the enclosure, this transmittal document is decontrolled.</p>
