Dr. Thomas E. Murley, Director
 Office of Nuclear Reactor Regulation
 U. S. Nuclear Regulatory Commission
 Attn: Document Control Desk
 MAIL STATION P1-137
 Washington, DC 20555

Subject: Duane Arnold Energy Center
 Docket No: 50-331
 Op. License No: DPR-49
 Response to NRC Generic Letter 89-19, "Safety
 Implication of Control Systems in LWR Nuclear
 Power Plants"
 Reference: Letter from S. Floyd (BWROG) to J. Partlow (NRC)
 dated February 16, 1990 (BWROG-9022)
 File: A-101b, C-31

Dear Dr. Murley:

NRC Generic Letter 89-19, "Request for Action Related to Resolution of Unresolved Safety Issue A-47, 'Safety Implication of Control Systems in LWR Nuclear Power Plants', Pursuant to 10 CFR 50.54(f)," dated September 20, 1989, requested that licensees provide a response within 180 days. The purpose of this letter is to inform you that we are participants in the BWR Owners' Group Committee (BWROG) that is preparing a generic response to Generic Letter 89-19. The BWROG currently expects to submit that response to the NRC by March 20, 1990 and has requested that the response date for utilities be extended to May 4, as stated in the referenced letter. We endorse that request; by May 4, we can review the BWROG submittal and submit our plant specific response. We will keep you informed of any changes in this schedule.

Please contact this office if you require further information.

Very truly yours,

Daniel L. Mineck
 Manager, Nuclear Division
