Semiannual Report for the "Plan for
the Integrated Scheduling of Plant
Modifications for the Duane Arnold
Energy Center"

File: A-18a, A-101b, A-278, T-23a

Dear Dr. Murley:

Reference 1 provided our plans and schedules for the completion and submittal of the Duane Arnold Energy Center (DAEC) Individual Plant Examination (IPE) results. These plans and schedules were subsequently included in the DAEC Integrated Plan and most recently communicated to you in Reference 2.

Based on discussions at the IPE technical briefing held with your staff on June 25, 1992, and follow up conversations with our Licensing Project Manager, we have determined that additional time to prepare our submittal would be advantageous. This additional time will allow us to further evaluate the results of our IPE and better assess the plant-specific events or sequences

that might require further attention. The end result will be a more thorough and complete analysis for your review.

Consequently, in accordance with the requirements of Section V.B of the "Plan for the Integrated Scheduling of Plant Modifications for the Duane Arnold Energy Center", we are hereby notifying you of the change in our submittal schedule from August 31, 1992 to November 30, 1992. The revised date has been discussed with your staff and they have expressed no concerns with it.

Should you have any questions or concerns regarding this matter, please contact this office.

Very truly yours,

John F. Franz, Jr.
