Dennis,

Below are the concerns I have with the North Anna ITAAC.

Physical Security ITAAC's,

2.c Clarification on phase "passable size". What was the criteria used or basis (Regulatory Guide on NEI guidance).

11.c.ii Does not appear to address all aspects of this ITAAC and the current Part 10 is not consistent with R-COLA, or other designs COLA.

Dennis,

To make sure we have the right SMEs available, it would be helpful if you could provide more detail regarding the questions you have. Also, are you referring to FSAR 14.3.4.12, ITAAC for Physical Security Hardware?

Thank you.

Barry
