Re: Comment on DRAFT SEIS for the Seabrook Station License Renewal  
(R&C #863)

Dear Mr. Wrona:

Thank you for providing the Division of Historical Resources (Division) an opportunity to comment on the site specific DRAFT Supplemental Environmental Impact Statement (SEIS) submitted August 5, 2011. This letter is in response to your request pursuant to 36 CFR 800.8(c) for comments on the SEIS and the preliminary conclusions regarding historic properties

The Division concurs with the Commission's determination that no historic properties will be affected by the proposed action that is the license renewal for the Seabrook Station. It is the Division's understanding with this action there are no proposed plans for land disturbing activities in the sensitive areas previously defined within the Cultural Resource Management Plan for Seabrook Station. If and when ground disturbing activities are planned the Division anticipates consultation.

The Division has no substantive comment on the DRAFT SEIS. The Division does appreciate the opportunity to provide comment.

Sincerely,

Edna Feighner  
NH Division of Historical Resources  
Archaeologist/Review and Compliance Coordinator
