Subject: Docket Nos. 52-025-COL and 52-026-COL

Nuclear Regulatory Commission

As the Mayor Pro-tem for Augusta, Georgia, I want to express my complete support for the issuance of the COL for Plant Vogtle units 3 and 4 (Docket Nos. 52-025-COL and 52-026-COL).

Southern Nuclear has been a great neighbor and corporate partner for decades. And the economic impact Plant Vogtle brings to our county is essential to our way of life, which will only improve with the addition of the new units. Not only is Vogtle a good neighbor, they have an outstanding safety record and they have a serious concern for Savannah Rivers longevity.

The positive environmental impact of nuclear energy is undeniable. We need the safe, clean and reliable electricity that these units will provide Georgians for generations to come.

I strongly encourage the commission to approve the COL without delay.

Joseph Bowles, Mayor Pro-Tem
